

## SAFETY ADVICE

- Consider carrying a personal alarm / body camera
- Turn your phone into a GPS alarm - download safety apps such as 'Hollie guard', 'Bright Sky' and set up the buddy alert with safe friends and family who can track your location in an emergency
- Vary your daily routine and take different routes to and from work
- Park in well lit areas near the public, or near CCTV. Always park facing an exit for a clear quick get away
- If you are being followed head for a place of safety e.g. Police Station, public areas, 24hr supermarket, petrol station that has CCTV
- Keep to areas in view of the public that are not isolated. Keep your phone in your hand and activate your safety app
- Review your privacy settings on all social media, and encourage friends and family to do the same
- Review your online presence by typing your name on search engines to see what information is available to the public
- Change email, social media and bank account passwords regularly, and ensure answers to security questions can't be guessed

## STALKING IS A CRIME

Stalking is a pattern of repeated, persistent and unwanted behaviour that is invasive and can generate fear. Stalkers can be male or female.

Stalking occurs when the person becomes fixated and obsessed with another. Stalking is a devastating crime and its impact can result in major life changes for the victim, eg:

- **Living in constant fear**
- **Invasion of privacy**
- **Threats of violence**
- **Loss of employment**
- **Having to move**
- **Isolation, unable to go out**
- **Depression, Anxiety & PTSD**
- **Potential physical injuries**

You can take immediate action if you are being stalked by calling the police on 101 (non emergency) or 999 if you are in immediate danger.

You can self refer to the Stalking Advocacy Service for support, advice and safety planning on:
